WEDNESDAY, JAN. 25, 1899.  
**GUSTON.**

Mrs. Rufus Carter, of Vine Grove, is visiting her sister, Mrs. Sig. Loeb.  
Miss Mary Ryan, one of Cloverport's most beautiful and charming young ladies spent last Sunday with Miss Helen Pollock.  
Ed Smith, of the I. C. Road accompanied his family home to Louisville last week, they have been on an extended visit to Mr. and Mrs. G. W. Smith.  
Lawrence Bewley has gone back to his new home in Oklahoma city. Lawrence has a nice position in a grocery store on a salary of \$40 per month with rooms free.  
Frank Miller will receive his honorable discharge this week from the U. S. A., a position, Ala., and will come home to reside. Frank made the same kind of a soldier as he did a business man "a good and dutiful one."  
Frank Morton and family took the train here last week for Louisville where they will make their future home. Mrs. Morton who was a Miss Smith has a brother living in that city. Here's a hearty welcome to them.  
It is substantially reported in Guston this (Sunday) afternoon that Miss Ola Shumate, daughter of Mr. George Shumate, was thrown from a horse and had an arm broken. Miss Ola formerly taught school in this town and all very much regret her misfortune.  
Your correspondent had the pleasure of visiting the hospitable home of Jim Dowell, near Irvington. Mr. Dowell is the owner of one of the most fertile and well kept farms in that part of the county which is stocked with the most improved breeds of Poland china hogs, short horn cattle, fat horses and nice lot of young mules. The spacious floor of his big barn is covered with 100 bushels of wheat and over 300 bushels of orchard grass seed, he is holding his wheat for higher prices, but is selling out his grass seed at the reasonable price of 50 cents per bushel. I purchased thirty bushels of him at that price. But of all on the place that struck me with more force than anything else, is a relic of antiquity in the shape of an old clock which stands 8 feet high, is 108 years old and keeps as good time as any modern chronometer. The clock was made by L. Watson, of Cincinnati, the second hand has rather a peculiar movement only jumping thirty times in making the circuit of one minute, I was surprised to find on that old clock a hand that registers the days of the month, thinking that only the modern time pieces performed that duty. The clock is not wound as are most clocks by a key, but is wound by lifting the large weights and pulling a cord, it was left Mrs. Dowell by her mother, she has had offers time and again to buy the clock but she says she intends keeping it as long as she lives. The center of the top of the face has a beautiful crown in gilt with other gilt figures on its face, its a beauty.

Eli Mattingly and daughter, Miss Jennie, visited in Grayson several days last week.  
Fred McDonald, of Henderson, Ky., is attending school at Glendene. Mr. McDonald is a bright young man and Mr. Pike does well to secure such pupils.  
Our school closes next week. We will have our closing exercises on Saturday afternoon beginning at 12 or 1 o'clock. All are invited to come out and rejoice with us.  
The writer spent several nights among the hospitable people of Sunny Dale neighborhood last week and will say we often miss a great deal of the world's brightness and sunshine by staying at home all the time.

Mrs. Blanche Fontaine has delivered Mrs. R. M. Jolly's kind message. I am only too glad to have an opportunity to "fulfill my long promise" and shall certainly do so when possible. Irvington stands "prime in my estimation."  
Kokomo, Ind. has a novel curfew law

pending to keep the new woman at home to mind the babies. Most of us wonder why there never was a law showing us how to leave the babies.  
Brother Davall preached last Sunday night. Bad Preach, Will Ashcraft, Lula and Minnie Black sang that pretty quartet, "Incline Thine Ear" with which we are all familiar. The parts were all well sustained.  
Mr. and Mrs. W. H. Gough enjoy their graphophone which furnishes a variety of amusements for the home circle. Speeches, song, instrumental, bands, and orchestra. Wonderful! In the next century I wonder what will be reached?  
The death of Mr. and Mrs. W. H. Patt in Petersburg, Va., brings up thoughts of the happy "dog long ago." I knew them well in Louisville when Mr. Patt was rector of Calvary Episcopal church. He was an able minister and one of our most elegant sons-in-law.  
The fate of the Paul Jones is a sad one, surely an explosion caused it. The yacht stopped at our wharf on its way down the Ohio and the young ladies came up to Yakel & Co's and made some purchases. Several here were aboard of the Paul Jones and pronounce her a beauty. We are afraid the bodies will not be found.  
Talk about young America Mr. Editor. Speak of progressive ages. Well, last Friday night took the blue ribbon when lads and lassies of 9, 10, 11, and 12 paired off and danced to the candy-pulling. How they did enjoy it! How sweet and innocent they all looked. The "bunch" of a maturer growth had better be looking to their laurels.  
The nightgale of Craig's Nos will today start off on another tour, matrimony well she has launched her ship twice divine Patti feels at home as much as on her professional tours to charm the world by her warlike. She has been a very charitable woman and has been remarkably popular with all classes in her own country, hence it is right that the corporation should turn out in state to show her all honor.  
I certainly should get stung if laughing aids according to the adage for I have read "Samantha a Saratoga." She gets in some good old fashioned "yaks" on "pardoners" of the comical yoke flitting at watering places. Josiah found some body to the "knots" with him if he was "twisted up the most sacred tale folks can be twisted in." But folks aren't "twisted" into comical "knots" you know when innocents' relations b-g-u.  
Yes, international topics and policies are quite interesting if you know the "why" and the "whatness" but if technical matters of rather an abstract kind tend to be discussed we must know such subjects as like successful differential calculus. We don't know and care less about such things unless we have rubbed up against Lady Dahlousie or Mrs. Gladstone. We all know about little boats and shallow water, don't we?  
Maude Resor, of Muldraugh, was here this time last year a pupil in the Normal, a perfect child. Last week she and Mr. Harrington ran off to Kentuckians Gretchen Green and had the nuptial knot tied. Maude isn't sixteen and her parents had expected to return her to the Normal for the spring term. She telephoned, "What did Miss Harrington think?" She thinks Maude good, kind, affectionate, with a beautiful home and kind, indulgent parents who wished to educate and accomplish her should have waited for several years before prefixing "Mrs." to her name. But "Bon-voyage" to the young couple on an unknown, untried sea.  
I have read an interesting letter from Chas. M. Nevitt to his parents after his arrival in the Lone Star State. He is much pleased and enjoyed his trip, but regretted not being in St. Louis longer. He had never seen cotton fields before and if Chas. was like me those cotton fields, pine forests and palm trees in Arkansas were novel and interesting sights. Charlie speaks most complimentary of Mr. McDonough's wife, for kindness and intelligence. Mr. McDonough is state agent for Texas, Indian and Oklahoma Territories for the celebrated Eagle Cotton Gin Machinery, Fire City Iron Works, engines and boiler, or everything needed for a complete gin plant. He and Charlie are made county friends in whom we feel much interested and for whom we hope prosperity all along the line.

Mrs. Ken Watten was the guest of her sister, Mrs. W. J. Pigott, several last week.  
A Teachers' Institute convened at Planter's Hall, Meade county, Saturday, Jan. 21st.  
G. A. Foote managed to have business in the city during the poultry show, which he attended.  
Mrs. Chas. Gross, who has been visiting her parents, Mr. and Mrs. Thomas Payne has returned home.  
It is with regret that we hear of the illness of Mrs. W. G. Hardaway. She is a universal favorite here and we can hardly bear the thought of losing her.  
Miss O. Shumate was thrown from a runaway horse last Wednesday morning on her way to school and now suffers a broken arm.  
Thanks to Falls of Rough for appreciative words. I should be glad to meet him or her, as the case may be and look into the eyes of one with whom I am so associated.  
Brandenburg often speaks a good word for the Louisville Evening Post. She is correct in what she says and if any one wants a good paper that comes next to the News.  
A telephone line from Bewleyville going the Meade county line from Guston to Big Spring at Hon. A. J. Thompson's house is under way and we hope to have it completed soon. We are to have a box in our house and that will give us the privilege of one of "Woman's Rights".

## Catarrh Leads to Consumption.

**A Forerunner of the Most Fatal Disease.**

Though its offensive features are sometimes almost unbearable, few people are aware of the danger of which Catarrh is the forerunner. Catarrh invariably leads to Consumption. Growing worse and worse each winter, those who rely upon the usual treatment of sprays, washes and inhaling mixtures find that it is impossible to check the disease with these local applications which only reach the surface. The offensive discharge increases all the while, causing a feeling of personal defilement, and gets deeper and deeper until it is only a question of a short time until the lungs are affected.

The importance of the proper treatment can therefore be readily appreciated. But no good whatever can be expected from local applications, as such treatment never did cure Catarrh, and never will.

Those who have had the first touch of Catarrh will save endless suffering by taking the right remedy at the outset. Others who have for years sought relief and found only disappointment in local treatment will find it wise to waste no further time on sprays, washes, inhaling mixtures, etc., which are only temporary and can not save them from Consumption. Catarrh is a deep-seated blood disease. S. S. S. is the only remedy which can reach the very bottom of the disease and cure it permanently.

**Has Declined to Run.**  
Ex-Governor John Young Brown, whom it was confidently expected would make the race for the democratic gubernatorial plum, has announced that he would not be a candidate. He came out in a formal letter to that effect last Friday.

**"I had such a severe case of Catarrh that I lost my hearing in one ear, and part of the bone in my nose sloughed off. I was constantly treated with sprays and washes, but each winter the disease seemed to have a firmer hold on me. I had finally been declared incurable when I decided to try S. S. S. It seemed to get right at the seat of the disease, and cured me permanently for I have had no touch of Catarrh for seven years."**
